## The Best of Expo Chicago 2018

The seventh edition of Expo Chicago opens today with 135 galleries from 27 countries. Highlights from the contemporary and modern art show, which is housed in the city's famed Navy Pier, span well-known galleries, single artist shows from young exhibitors, and IN/SITU, an on-site selection of sculptures curated by Pablo León de la Barra. Here are a few of our favorite pieces from the fair, which runs through September 30.
